

RLH Universal Single mode and Multimode Fiber Optic Test and Maintenance Kit

Anyone installing or maintaining fiber optic equipment must have the necessary tools to properly test and maintain this equipment. RLH Industries, Inc. provides easy to use fiber optic test and maintenance kits to cover both single mode and multimode fiber cable installations.

P/N# RLH-F1-0053TS

Universal Fiber Optic Test Kit Also Includes

- Rugged Carry/Travel Case
- Miller fiber cable stripper
- Kevlar scissors
- Universal Continuity Tester
- Round Cable Jacket Slitter
- Round Cable Cutter
- Buffer tube stripper
- Needle Nose Pliers
- 4 bit screwdriver
- 1/2" Nut Driver Utility Knife
- RLH connector end cleaner
- Tweezers
- Piano Wire
- Safety Glasses
- Canned air
- PVC electrical tape
- 4oz Alcohol Bottle
- Alcohol wipes (50 pack)
- 5 Citrus D-Gel Wipes for removing blocking gel (25 pack)
- Kim Sterile Wipes (100 pack)
- 50 foam swabs
- Index Matching Gel
- Black permanent marker
- Black Work Mat
- Fiber Disposal Unit
- Wire Marker Dispenser
- Ruler
- Fabric Tape Measure
- 3 Economy Tie Labels
- 5 Fusion Splice Sleeves
- 4 gram Blue Dye Epoxy
- 1mtr 3mm Furcation Tube

Fiber Optic Test & Maintenance Kits

RLH Cleaning Kit

P/N# RLH-F1-0053CKM

RLH Cleaning Kit Contents:

- 200X Microscope
- Compressed Air (10oz)
- 2.5mm Foam Swabs (50pk)
- 1.25mm Wrapped Swabs (5pk)
- Kim Wipes
- Alcohol Pads (50pk)
- RLH Connector Cleaner
- 4 oz. Bottle of Alcohol

RLH Power and Source Meter Test Set

P/N# RLH-F1-813LR

RLH Hand Held Power Meter

- (0.01dB Resolution)-
- 850/1300nm Dual LED Light Source
- Source Kit & Rugged Carrying Case
- Reference MM & SM Fiber Jumpers
- ST/FC/SC Adaptor

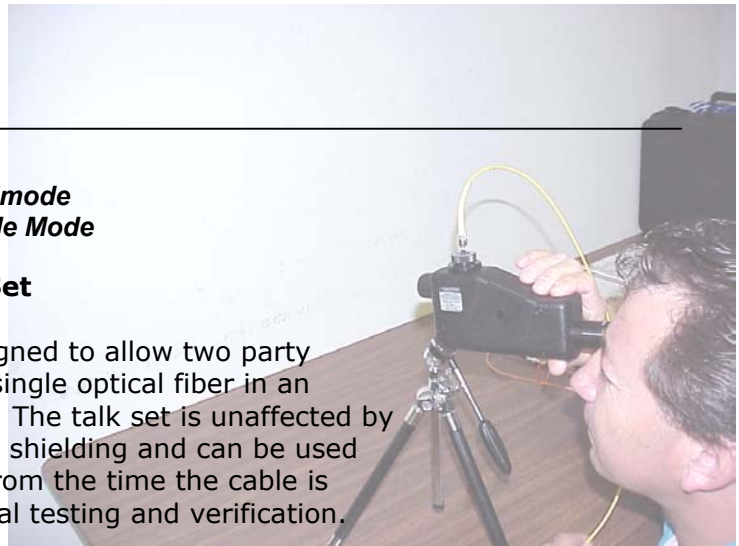

P/N# RLH-9061-0000 Multimode
P/N# RLH-9062-0000 Single Mode

RLH Fiber Optic Talk Set

The RLH Talk Set is designed to allow two party communications over a single optical fiber in an installation environment. The talk set is unaffected by location, electrical noise, shielding and can be used during the installation, from the time the cable is "broken out" through final testing and verification.

- Offers 20dB budget on multimode fiber
- Offers 25dB budget on single mode fiber
- Supplied with a pair of headsets and carry case
- Units utilize 9 volt alkaline batteries
