

The RLH Four Card Housing provides convenient and economical mounting for up to four (4) RLH Fiber Optic Link Cards onto a backboard with a small footprint.

Four Card Housing Includes:

- Injection Molded Plastic Housing
- 4-Card Swing Out Insert
- Cable Access at Bottom
- Cable Routing Accessories
- Lockable Cover
- Mounting Hardware

Housing is mounted via (4) wood screws (provided). Fiber optic and copper cabling is ran directly into bottom of enclosure and sealed with a webbed gasket.

Depth of Enclosure=5.5 inches
