

Fiber Optic Link 2/4 Card Rack Mount Housing

The RLH 2/4 Card Rack Mount Housing is a 2 rack space (2RU) unit for use in telco, 2-post relay racks, or standard front rail 19 or 23 inch equipment racks. It is designed to hold up to four Fiber Optic Links Cards, or two Fiber Optic Link Cards with a power adapter. The power adapter can accept either 100-240VAC or 110-180VDC power input, with 24 or 48 VDC output.

Constructed of 16-gauge steel with a convenient slide out tray for easy access to equipment from the front panel, the enclosure locks with two spring-loaded knob screws, has a viewing window for cards with status LEDs, and multi-position rack ears for flexible mounting. Cable management hardware is included. Size: 3.5”H x 17”W x 11.5”D (2RU)

4-Card Rack Housing with Fiber Optic Link cards installed
