**FIELD SERVICES**

- Fiber Services
- Structured Cabling
- Engineering & Design
- High Voltage Protection
- Turn-Key Installations
- Telco Coordination

**MATERIAL LIST**

1. 20' OF 1-2" SCHD 40 PVC CONDUIT
2. QTY 4 - 90° 2" BENDS (MIN. 24" RADIUS)
3. QTY 2 - TYPE-03 PEDESTAL, DIMENSIONS 48"H (35" ABOVE GRADE) X 24"L X 17"D

RLH Industries, Inc.

The Leader in Fiber Optic Communications and Services since 1988

**FIELD SERVICES**

**GPR STUDIES**
Work with RLH’s Engineers to develop the GPR Study needed to land services at your generating or distribution facility.

**TELCO COORDINATION**
RLH’s project managers will work with your service providers to identify hand-off points and the type of isolation equipment needed.

**INSTALLATION**
RLH’s team of technicians will handle the installation of your isolation equipment. We do everything from pedestal installation to fiber cable installation and termination.

**SERVICE TURN UP**
RLH offers a turn up package. A trained technician will be on-site to turn up the services and ensure all equipment is operating as planned.

**HIGH VOLTAGE PROTECTION**

**Turn-Key HVP Installations**
RLH is the pioneer fiber optic isolation equipment manufacturer that has been helping customers navigate the complicated world of isolation for close to 28 years. We offer the most experience along with a world class team of project managers.

Our installation team will work with you each step of the way to ensure a trouble free process so that services are ready on time.

*With a single point contact, we make complex fiber optic communications simple.*

**GPR Studies • Telco Coordination • Turn-Key Installations**

**CFJ Placements • Consulting & Engineering • Pathway Development**

**Demarcation Extension • Solar Power Plant Connectivity**

**Fiber Optic Cable Services**

RLH has over 28 years of experience working on fiber cable within Cell Towers, Power Utilities, and Distribution Facilities.

With a team of professionals and an outstanding field safety record we are ready for any fiber services job our customers may require.

---

**Fiber Installation & Maintenance**

Fiber termination, splicing, testing, and maintenance are important services needed at every fiber location.

Critical communication lines require trained and certified technicians for fast and complete service. RLH can provide fiber services in any environment as well as solutions to improve existing infrastructure.

---

**TELECOMMUNICATIONS**

Our team routinely provides cable placement and on-site connector termination for ST/SC/LC/FC style connectors.

---

**FUSION SPLICING**

Our certified technicians have specialized training, top of the line equipment, and field tested techniques to work efficiently on-site in critical environments.

---

**OTDR / OTLS**

Thorough understanding of fiber cable is critical for fast diagnosis and quick repairs. Our certified technicians have the training and experience needed to utilize high-end testing tools to identify and repair cable.

---

**CONSULTING & ENGINEERING**

Project management services extend from right-of-way permit coordination, conduit & directional boring, to multi-site aerial fiber runs. No project is too large or small.

---

**Fiber Connectivity**

- Fiber Termination
- Fusion Splicing
- Aerial & Roadside Splicing
- OTDR / OTLS Testing
- Design and Install OSP
- Trouble Analysis and Repair
- Nationwide Services
- Emergency Services
- Consulting & Engineering
- Insertion & Return Loss Testing
- Bandwidth Testing
- Fiber Certification
- Fiber Optic Cable Installation
- Pathway Development
