### Outdoor & Indoor Fiber Cable Assemblies

#### Fiber Cable Assemblies Built to Your Specifications

Pre-terminated fiber cable assemblies are ideal for either backbone or drop applications in both indoor and outdoor environments. Available in any length and fiber count RLH provides the highest quality fiber assemblies with test reports included with every cable. A pulling sheath is recommended for quick and easy installation and will protect the pre-terminated ends during the pull.

#### Key Features

- All cable assemblies are fully tested
- Singlemode and multimode up to 100G (OM4)
- Available in any length
- Cable ships ready to pull through conduit

### Ordering Information

RLH -      -

**A - Fibers**  
 02 = 2 fibers    36 = 36 fibers  
 04 = 4 fibers    48 = 48 fibers  
 06 = 6 fibers    72 = 72 fibers  
 08 = 8 fibers    96 = 96 fibers  
 12 = 12 fibers    C4 = 144 fibers  
 24 = 24 fibers

**C - Fiber Type**  
 SM = Singlemode (8-9/125)  
 MM = Multimode (62.5/125, OM1)  
 M5 = Multimode (50/125, OM2)  
 MX = Multimode 10G (50/125, OM3)  
 MC = Multimode 10G (50/125, OM4)

**D - Breakout Type**  
 9 = 900 micron  
 2 = 2.0mm  
 3 = 3.0mm

**E - Connector 1 & 2**  
 ST = ST                      LC = LC  
 SC = SC                     LD = LC Duplex  
 SD = SC Duplex            LA = LC/APC  
 SA = SC APC                LL = LC/APC Duplex  
 SB = SC APC Duplex      XX = NONE  
 FC = FC  
 FA = FC/APC

**F - Length**  
 XXXX = Length  
**G - Units**  
 M = Meters  
 F = Feet  
**H - Pulling Sheaths**  
 0 = NONE  
 1 = 1 Pulling Sheath (end 1)  
 2 = 2 Pulling Sheaths

B - Cable Type		
Suitable for Both Indoor & Outdoor Use		
<b>Loose Tube:</b> CR = Indoor/outdoor riser CP = Indoor/outdoor plenum CI = Indoor/outdoor riser armored CQ = Indoor/outdoor plenum armored CO = OSP CD = OSP armored AO = ADSS	<b>Tight Buffer:</b> IR = Indoor/outdoor riser IP = Indoor/outdoor plenum ID = Indoor/outdoor riser armored QD = Indoor/outdoor plenum armored	<b>Ribbon:</b> CB = OSP BD = OSP armored
99 = OTHER		
Suitable for Indoor Use Only		
<b>Tight Buffer:</b> RI = Indoor riser PI = Indoor plenum RD = Indoor riser armored PD = Indoor plenum armored LZ = Indoor LZHS	<b>Ribbon:</b> RB = Indoor riser PB = Indoor plenum	<b>Micro Distribution:</b> PL = Indoor plenum PQ = Indoor armored plenum
99 = OTHER
