

## Outdoor & Indoor Fiber Cable Assemblies

### Fiber Cable Assemblies Built to Your Specifications

Pre-terminated fiber cable assemblies are ideal for either backbone or drop applications in both indoor and outdoor environments. Available in any length and fiber count RLH provides the highest quality fiber assemblies with test reports included with every cable. A pulling sheath is recommended for quick and easy installation and will protect the pre-terminated ends during the pull.

### Features

- All cable assemblies are fully tested
- Singlemode and multimode up to 100G (OM4)
- Available in any length
- Cable ships ready to pull through conduit

### Ordering Information
