Single Fiber Link Card Housing

DIN-RAIL & WALL MOUNT APPLICATIONS

Description

The Single Fiber Link Card Housing is designed to one Fiber Link Card. The housing is constructed of powder coated 16-gauge steel, and includes wall mount brackets for flexible mounting options. It features a latching, slide out rail mount for easy access to equipment from the front of the housing.

This DIN mount housing is perfect for compact DIN rail applications, or crowded equipment areas where space is at a premium. The housing provides protection for the card, which helps to ensure reliability of the equipment.

Key Features

- Compatible with most RLH Fiber Link Cards*
- Powder coated steel construction
- Slide-out, front access to cards and fiber
- Adjustable mounting ears
