

# Fiber Adapter Plates (Black)

AP-XXX-XXXX-B

## Fiber Adapter Plates for End-to-End Fiber Solutions

Our Black Fiber Adapter Plates can be ordered individually or preinstalled into select RLH fiber optic patch panels\*.

RLH adapter plates utilize a common installation format referred to as LGX style adapters. This allows them to be mixed and matched as needed in all compatible wall or rack mount patch panels that accept LGX adapter plates. Additionally, our LGX adapter plates may be used with Corning® patch panel products when used with our Corning® compatible adapter.

These Black Fiber Adapter Plates are compatible with all RLH fiber patch panels except for the Optimum Series (see note below). RLH adapter plates will fit patch panels from other vendors that support the common LGX adapter plate footprint.

\*RLH patch panels will take either our Black series or Gray series Fiber Adapter Plates. Please check the individual product page to verify which series of plates is compatible.

\*Not compatible with our RLH Optimum Series patch panels.

## Key Features

- RJ-45, ST, SC, LC, FC, and MTP/MPO options available
