Fiber Adapter Plates (grey)

Wide Range of Fiber Adapter Plates to Complete Your Fiber Solution

Our grey Fiber Adapter Plates can be ordered individually or preinstalled into select RLH fiber optic patch panels*.

RLH adapter plates utilize a common installation format referred to as LGX style adapters. This allows them to be mixed and matched as need in all compatible wall or rack mount patch panels that accept LGX adapter plates. Additionally, our LGX adapter plates may be used with our Corning® compatible adapter when needed.

Our grey Fiber adapter plates are compatible with all RLH fiber patch panels (see note below) except for the Optimum Series. Since our adapter plates utilize a common format we are also compatible with many other vendor patch panels who support the common LGX Foot print type adapter plates.

*RLH patch panels will take either our black series or grey series Fiber Adapter Plates. Please check the individual product page to verify which series of plates is compatible.

*Not compatible with our RLH Optimum Series patch panels.

Key Features

- Available with ST, SC, LC, FC and MTP/MPO adapters
- Constructed out of lightweight aluminum
- Plate features common LGX foot print size
- Compatible with many fiber patch panels that support LGX Foot Print Adapter Plates

Part Number: AP-BLANK-G

Blank Adapter Plate, Grey

Fibers	Adapter	Mode	Fiber Type	Adapter Color	Plex	Plate
Zero	None	None	None	None	None	Grey
