### MTP/MPO Fiber Cassettes

#### Patch Panel Accessory

RLH MTP Fiber Cassettes are specially designed to reduce installation time and cost for an optical network infrastructure in the premises environment. The Cassette is compact in size with SC or LC duplex port adaptors at the front and MPO/MTP adaptor(s) at the back. This system enables a multifiber MTP trunk cable connection break-out into simplex- or duplex-style connectors.

#### Key Features

- Space-saving design
- 100% performance guarantee
- Save installation time and labor
- Can be loaded with wall or rack LGX enclosures
- Cable terminated in high-density MTP/MPO connectors
- Singlemode or multimode fiber types available
- Available in 12-fiber and 24-fiber configurations

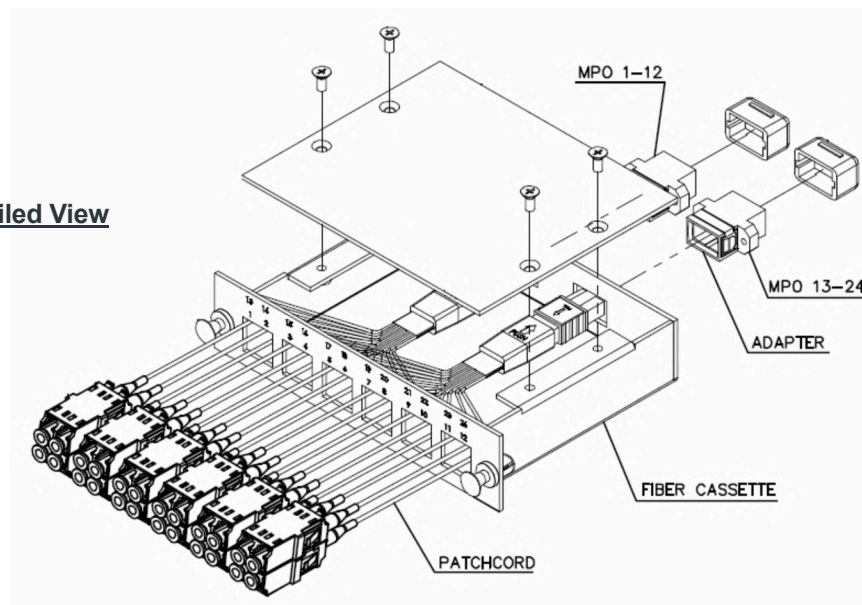

#### Specifications

- Dimensions: 5.1" (W) x 3.55" (D) x 1.19" (H), (128mm x 90mm x 30mm)
- Material: Steel Base with Tinted Polycarbonate Cover

MTP/MPO Fiber Cassettes
